in the early 1930s a wave of marian apparitions cases in which visionaries reported seeing and receiving messages from the virgin mary swept over belgium with over forty apparition sites and hundreds of visionaries the belgian apparitions often attended by crowds of onlookers were unrivalled in scope and complexity and they confronted catholics and others with a question how do you decide what you believe apparition fever explores the belgian apparitions from initial reports to the eventual recognition of two episodes in the 1940s it shows how knowledge was formed at all levels among the bystanders attending the sites to the medical experts who studied the visionaries and the clerical authorities who evaluated the authenticity of the apparitions tine van osselaer examines how these different perspectives converged and influenced each other whose authority was accepted or challenged and how the public character of the events affected their evaluation apparition fever reveals that the public setting of marian apparitions and the religious enthusiasm they triggered are not novel challenges for the catholic church on the contrary they have heavily influenced the evaluation of apparitions since the early twentieth century

the oxford handbook of mary offers an interdisciplinary guide to marian studies including chapters on textual literary and media analysis theology church history art history studies on devotion in a variety of forms cultural history folk tradition gender

analysis apparitions and apocalypticism featuring contributions from a distinguished group of international scholars the handbook looks at both eastern and western perspectives and attempts to correct imbalance in previous books on mary towards the west the volume also considers mary in islam and pilgrimages shared by christian muslim and jewish adherents while mary can be a source of theological disagreement this authoritative collection shows mary s rich potential for inter faith and inter denominational dialogue and shared experience it covers a diverse number of topics that show how mary and mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion newly commissioned essays describe some of the central ideas of christian marian thought while also challenging popularly held notions this invaluable reference for students and scholars illustrates the current state of play in marian studies as it is done across the world

two thousand years ago jesus told the parable of the suffering beggar lazarus and

the rich man each had died with lazarus joining god in heaven for all eternity while the rich man was condemned to the flames of hell send someone to warn my brothers the rich man pleaded so they won t end up in this place of torment but god said they have the prophets to warn them your brothers can listen to them to which the rich man responded then let lazarus return from the dead that they may believe but god said they will not believe even if a man should rise from the dead over the last five hundred years we have witnessed a great many apparitions of the virgin mary in places such as guadalupe mexico lourdes france fatima portugal each apparition has carried a distinct albeit similar message pray the rosary every day sacrifice for the conversion of sinners and stop offending god to do these things will mean the defeat of satan and his godless ways an end to communism and its worldly tendencies and peace and harmony on earth regardless of the associated miracles witnessed by thousands millions of people continue to deny the reality of the apparitions and decry the message as a joke this book recounts the historical life of bernadette soubirous of lourdes france a rather ordinary nineteenth century life turned upside down at the tender age of fourteen by the miraculous events that occurred in a rock grotto near the dumping grounds of massabielle the many apparitions of a woman who identified herself as the immaculate conception the miraculous cures that were attributed to a spring of common water the virgin s message to mankind and the extraordinary relevance today for all that care to listen but as jesus said even if someone should rise from the dead there would still be unbelievers isn t it a pity

this is currently the only volume that comprehensively presents the scientific evidence in support of jesus the eucharist and mary father robert spitzer s j closely examines the scientific evidence for the passion and resurrection of jesus from the shroud of turin the real presence of jesus in the holy eucharist from three recent scientifically investigated eucharistic miracles the supernatural dimensions of the apparitions of mary manifest in the tilma of guadalupe the miracle of the sun at fatima and many healing miracles connected with the grotto of lourdes this work also presents a summary of contemporary historical and exegetical evidence for the historicity passion and resurrection of jesus and concludes with a consideration of the catholic church and science particularly the church s contributions to science the complementarity of science and the bible and the complementarity of physical evolution and the creation of a soul the book makes clear that the catholic church is not anti science but quite the opposite it is one of the most scientifically aware

religious denominations in the world it will also be clear that science is not anti god anti christ or anti religious on the contrary its tools and methods give considerable credible evidence for all of them
